

Information

- Will you film a typing test for this?
- Could you tell me what factory you use to produce your cases?

Will you film a typing test for this?

No. Three reasons:

- Sound varies significantly depending on parts, environment, desk material, etc.
- My personal builds tend to sound miserable.
- I do not have proper recording equipment capable of making it happen.

Could you tell me what
factory you use to produce
your cases?

No; such information is usually kept confidential.
